EXPERIENCE

Team manager & IT specialist

Fekra Printing center

July 2024 - April 2025, Cairo

- as a Team Manager & IT specialist I used to help my team accomplish tasks faster and more accurately than usual by using advanced methods such as setting up a server to help store information faster and prevent it from being easily lost.
- Streamlined print order workflow by integrating automated job tracking software and optimizing device connectivity, boosting throughput and minimizing order processing delays.

EDUCATION

third-year student in the Faculty of Computer Science

Minor in english • Modern Academy • cairo,maadi • 2025 • 2.4

SKILLS

Frontend with html, css, javascript - Desktop app - c++, java, - Database Sqlserver, c#

SUMMARY

My expertise revolves around assisting the team and fostering collaboration by adding tools that make things easier for them, whether those tools are technical or practical.
